Dog Care Products

In the first weeks of your puppy's life...

- Feeding** Use **Beaphar Lactol Puppy Milk** during weaning.
- Training** A few drops of **Beaphar Swiftie House Trainer** helps with toilet training. Use with **Beaphar Puppy Pads**.
- Worming** Most puppies are born with worms so treatment is strongly recommended. Puppies should be treated at 2 weeks of age, and then retreated every two weeks until they are 12 weeks old. Thereafter, they can be treated at 3 monthly intervals. We recommend using **Beaphar Worming Cream** or **Beaphar Worming Syrup**.

From 16 weeks of age...

- Fleas** Use **Beaphar FIPROtec® Spot-On** to protect against fleas and ticks.
- Worming** **Beaphar WORMclear®** should be used every 3 months.
- Training** Train your puppy to stop pulling on the lead with **Beaphar Gentle Leader®**, designed to work with the dog's natural instincts in order to control boisterous behaviour.

From 6 months of age...

- Fleas** **Beaphar FIPROtec® Spot-On** kills fleas on your dog for up to 4 weeks. Treat your home with **Beaphar FLEAtec**, which is effective for up to 6 months, and kills adult fleas, flea eggs and flea larvae.
- Worming** To remain worm free, adult dogs should be treated every 3 months with **Beaphar WORMclear®**.

A full range of other Beaphar products is available in your local pet store to keep your dog healthy and happy. Visit beaphar.com to find further tips on how to care for your pet.
