

**beaphar**<sup>®</sup>

**Beaphar Dental Range**

## Superior Cleaning; Lasting Freshness

**Beaphar Toothpaste** counteracts plaque and prevents tartar formation, resulting in better oral health. The tasty liver flavour means cats and dogs love it.

**Beaphar Tooth Gel** contains enzymes to counteract plaque and prevent the formation of tartar, offering daily protection to the teeth and gums. Just apply a thin line of gel across all of the teeth and your pet will spread it around its mouth. A method free of brushing for cats and dogs that do not (yet) have a dental care routine.

**Beaphar Toothbrushes** are specially designed for pets' mouths. The long handled brush has two different head sizes and a soft grip to ensure control. **Beaphar Finger Toothbrush** fits comfortably over your fingers, allowing you to get closer to your pet, which helps you keep them calm.

The **Beaphar Toothbrush & Toothpaste Set** offers cost-effective, easy-to-use protection for your dog's teeth. The two-ended brush can be used for all sizes and breeds of dogs. The liver-flavored paste counteracts plaque, resulting in fresher breath.

**Beaphar Puppy Dental Kit** comes with a puppy sized toothpaste tube, and a handy tooth brush, perfect for introducing your puppy to his new dental care regime.

**Beaphar Fresh Breath Easy Treat** contain Chlorophyll to assist against plaque attack and prevent bad odours.

**Beaphar Fresh Breath Spray** is an easy-to-use product which will keep your pet's mouth hygienic, and help to keep their teeth cleaner.

**Beaphar Dental Powder** is a 100% natural brown seaweed that has been ground to a fine powder. It encourages the body's natural mouth and teeth cleaning processes even after ingestion.

**Beaphar Mouth Wash** contains enzymes that fight bad bacteria and reduce the formation of plaque.

**Beaphar Fresh Breath Tablets** contain Chlorophyll to help control bad breath in cats and dogs of all ages.
